

Tuition.io Student Loan Contributions

Save Time and Money with Employer Contributions Towards your Student Loans

tuition.io

Employee Benefit Value

Money

Employees receiving contributions typically **save between \$5,000 to \$10,000** in payments.

Time

Employees receiving contributions typically **save 2-3 years** of student loan payments that they can use for retirement or family planning.

Peace of Mind

Accelerated payoff visibility alleviates debt management stress and provides an opportunity to **refocus on future goals**.

Your Contributions at Work

Through Tuition.io contributions are allocated to principal payments directly impacting the overall loan balance but also saving valuable time and dollars in future interest payments.

An employee with **\$30k in student debt** at **6% interest** and **10-year repayment term** will save:

Contribution Level	Total Employee Savings	Time Savings
\$25	\$3,733	11 Months
\$100	\$11,670	35 Months
\$150	\$15,220	46 Months

Key Student Loan Stats

The total student debt is **\$1.4 trillion** – higher than all credit card and auto debt combined

Parents taking out loans for their children has **quadrupled** over the last decade

70% of college grads have student loans averaging **\$37K**

On average, it takes **21 years** to pay off student loans

"So thrilled for the loan payoff benefit and the thought of zeroing this out much sooner than originally planned!"
